A REALTIFEL, DERAILE AND CHEAT ARTICES.

To invent a substance which would supersede the old style of Whitewashing, has long been the aim of the subscriber, and a with often expressed by homekeepers. That desideration has at last been obtained, and it affords the inventor much pleasure that he can supply the public with a substitute, which, while it has all the good qualities of Lime, has none of its objectionable features.

The dypenin gives the walls a brilliant gloss, will not rule off, and is therefore more durable is easily mixed, and curst in grone than the common large, and its sanitary qualities are accelent; it is therefore in every respect unsurpassed by anything of the kind ever offered to the public.
